DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on August 2, 2005 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on August 2, 2005 has been considered by the examiner.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

a. Claims 1-8 and 20 have been found to be allowable because while the prior art discloses a lithographic apparatus and corresponding method having a measuring interferometer for measuring position of at least one of the substrate and reticle and a second harmonic interferometer for adjusting measurements of the interferometer but the prior art either alone or in combination, neither discloses nor make obvious the combination of a lithographic projection apparatus and method comprising, among other elements, a second harmonic interferometer for

measuring atmospheric conditions along an optical path, and a control system with specific functions, as recited in the instant claims of the present invention.

Claims 9-13 have been found to be allowable since the prior art of record either alone or in combination, neither discloses nor makes obvious the combination of a lithographic projection apparatus having among other features, a second harmonic interferometer with particular structures and functions, as recited in the instant claims.

Claims 14-19 have been found to be allowable since the prior art of record, either alone or in combination, neither discloses nor makes obvious the combination of a lithographic projection apparatus comprising: an interferometer, a second harmonic interferometer, a control system, along with a beam combiner having particular structure and functions, as recited in the instant claims of the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Made of Record

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pril et al (U.S.Pat. 6,747,729) is cited for its teachings of a lithography system having a displacement measuring interferometer and a second harmonic interferometer with specific
